

# STUDENT PLACEMENT

## I. POLICY STATEMENT:

The St. Johnsbury School District will provide appropriate student placement, informative progress reports and student evaluations.

## II. RATIONALE:

The decision for student placement is made by the principal and a designee based upon consideration of the child, the involvement of the teachers, the concerns of the parents, the school administration, and, when appropriate, the guidance counselor. IEP team recommendations must also be considered before final placement.

We recognize that each student learns at a different rate, reaches differing levels of achievement and varies in physical, social and emotional maturity.
